

COVID-19 update – 19<sup>th</sup> July 2021

## **All facilities are now fully open!**

We will continue to operate under Covid-safe rules (see below), as we have done previously; our top priority continues to be the safety of our staff & guests and we will follow Government guidance closely.

### **HYGIENE & SELF-DISTANCING**

Our Covid cleaning regimes will be continuing, with all public areas (including washrooms, shop, laundry, and washing-up stations) being sanitised with the latest anti-viral technology at the beginning and end of every day, as well as being cleaned at regular intervals during the day.

We encourage guests to be respectful of others regarding social distancing in all areas of the park as some people are still vulnerable.

### **WHAT FACILITIES ARE OPEN/CLOSED**

The shop is open (with counter screen protection in place) and although there is no longer a limit to the number of people allowed in the shop, many are choosing to continue to wear masks, as are some of our staff.

As well as washing your hands regularly, we would also encourage you to use the sanitising stations which can be found in various places around the park.

The laundry is open, please ask for tokens at reception.  
Children's Play Area and games room are both now open.

**We look forward to seeing you soon!**
